This practical and indispensable article—especially for wear where exposed to ice, snow, or slush—was first introduced by this company several years ago, and its real value **is in being almost indestructible, when proper materials are used in its manufacture,** whilst the cheap, inferior quality, forced on the public by reckless imitators of our patent goods, soon becomes brittle and crumbles to pieces. B. W. RICHARDSON, M. D., F. R. S.,
On the Tricycle.

I have used both English and American, but find nothing, so far, to equal the "Expert Columbia." I ride from ten to twenty miles each day in pursuit of my business, and seldom less than ten. I do not ride one or two days and then lay the machine away for a week, but use it every day, rain or shine; and I must say the "Expert" is the finest machine made, according to my judgment; and, I think, for a man that has ridden several thousand miles, his judgment is worth something. I shall feel lost until you send the left leg to my horse, and, no doubt, he will feel lonesome in his little stable at home.

GEO. F. FOOTE, JR.
Indianapolis, Ind., Nov. 17, 1884.

I wish I could, in a few words, give you my opinion of the merits of your "Expert;" but I should require a volume, for new points of beauty and excellence appear each succeeding day as I watch with ever new delight its graceful movements as I sped along over the country highways. Its conception, its execution, its delicacy, its strength, its elasticity that takes up every jar, yet its firmness that gives such a feeling of security, the marvellous skill displayed in the adjustment of the parts—all this makes my wheel every morning a new study, and a new delight every evening, and ever as great a marvel as the first day I mounted it.

Having examined somewhat carefully the wheels of England and France, I do not believe that a better roadster is made in the world than your "Expert Columbia."

Professor, Brown University, Providence, R. I.
